

## Architectural Technologist

### About Republic

**Republic Architecture Inc.** is a creative and inclusive team. We are passionate about our work and committed to a collaborative approach to design and practice. Driven by the journey, we utilize an explorative process that connects all the right people around the table. Our desire to produce thoughtful and sustainable projects that engage the public is at the heart of everything we do.

### Position

We are looking to add an **Architectural Technologist** to be part of our growing team. This position includes:

- Production and review of construction drawings in REVIT.
- Active participation in the building design process from project inception through to design, construction documents, and construction administration.
- Identifying and resolving building technology issues.
- Building client relationships and fostering coordination throughout the entire design team.
- Working to deliver a vast range of project typologies across the country.
- Attending site visits and providing construction administration support services.
- Collaborating alongside our client groups and multi-disciplinary consultant team.

### Qualifications

Preference will be given to a well-rounded highly competent REVIT user with an architectural technology diploma from a recognized institution, and 3-5 years experience in an architectural office. Candidates should be a team player, motivated by a collaborative environment, and an astute multi-tasker. Experience using AutoCAD, Vectorworks, and MS Office is an asset.
