

### ARCHITECTURAL TECHNOLOGIST (Revit + BIM)

**Republic** is not your average design firm. Driven by the journey, we utilize an explorative process that connects all the right people around the table. Our desire to produce thoughtful and engaging projects is at the heart of everything we do.

If you've met our team, visited our studio, or checked out our social media posts, you know we are unique. Dedicated to elevating and maintaining the health and wellbeing of our team, the studio is decked out with fitness equipment, the kitchen is stocked with healthy snacks, and work areas range from cozy café style lounge spaces to ergonomically friendly sit/stand desks. While the studio is an inviting and creative space, our work can happen anywhere – we allow for remote work and flexible schedules. These are just a few of the things that make us different. We also have social groups, monthly team events, and so much more.

The **Architectural Technologist (Revit + BIM)** will be responsible for production and review of construction drawings in Revit. This role includes:

- Participating in the building design process from project inception through to design, construction documents, and construction administration;
- Setting up initial Revit model with site and context according to Republic's BIM standards and guidelines;
- Identifying and resolving building technology issues;
- Working to deliver a vast range of project typologies across the country;
- Maintaining company-wide BIM standards; and
- Collaborating alongside our client groups and multi-disciplinary consultant team.

Tell us why you're our next **Architectural Technologist (Revit + BIM)**. Send your resume to: [careers@republicarchitecture.ca](mailto:careers@republicarchitecture.ca)

Preference will be given to a well-rounded highly competent Revit + BIM user with an architectural technology diploma from a recognized institution, and 2 years experience in an architectural office. Candidates should be a team player, motivated by a collaborative environment, and an astute multi-tasker. Experience using AutoCAD, Rhino, and MS Office is an asset.
