

ARCHITECT

At **Republic**, culture isn't a line item, it's our foundation. Freedom fuels ideas, trust drives action, and fearless thinking fosters innovation.

Our studio is designed around wellbeing and performance—fitness equipment on hand and diverse spaces from relaxed café-style lounges to ergonomic sit/stand workstations. And while our space is something we're proud of, we don't believe great work is tied to a desk. We support flexible schedules and remote work so our team can perform at their best, wherever that happens to be.

We're growing and looking for an **Architect** to join the #PeopleOfRepublic. As a member of the architectural team, the Architect will be responsible for the development of enclosure retrofits for existing buildings, fit-ups, upgrades, and new construction projects.

What You'll Do

- Collaborate with like-minded architects, interior designers, and technologists;
- Author written recommendations for remedial work, and/or assemblies for retrofit and new work;
- Prepare technical drawings for owner review and costing, tender and construction;
- Collaborate alongside a broad, multidisciplinary consultant team, and our client groups; and
- Balance a desire for design excellence, sustainability, and cost effectiveness.

What You Bring

- At least four (4) years of experience in Canadian architectural practice;
- Experience with BIM software, specifically Autodesk Revit is an asset;
- Exemplary technical design and problem solving skills;
- Broad experience with detailing and preparation of construction documents for a variety of types of building envelope projects, both new construction and renovations/retrofits; and
- A proven track record of maintaining high quality standards while meeting project milestones.
- Fluency in the French language an asset.

Why Republic?

We're intentional about how we work and who we work with. This is a place for people who want more: more collaboration, more impact. You'll have the autonomy to lead, the support to grow, and the platform to do meaningful work.

Tell us why you're our next **Architect** by e-mailing your resume to: careers@republicarchitecture.ca.

Serious about our work - not about ourselves.
